

**Discernment Companion:** Recognizing the importance of discernment in all areas of life, Carly Poe wrote this much-needed resource. Simple and straight forward, Carly used her years of schooling in curriculum development and ministry experience from teaching and missions to author this companion study guide to Pastor Charles Pretlow's Discernment book ISBN 978-0-9801768-4-1. Written for the serious student and disciple of Christ in mind, Poe uses a format that leads the reader from passively reading into a dynamic study and interaction with this multifaceted aid (helping the student to be led by the Holy Spirit). Broken down in three parts; a study guide to the Discernment book, a twelve day devotional-journal, and a workshop / DVD curriculum workbook. Discernment for Christians is now the most important aspect of one's walk. Christ clearly warned about the time that is now upon us, when many would come in his name and lead many astray. Utilizing the Discernment Companion study will greatly enhance learning to walk in true discernment at a pace that does not waste time.
